You don't use the asdf and jkl; typing patterns of other programs The student sees and hears the patterns repeatedly – it's multisensory AND repetitive for students with working/short-term memory issues.. There was no doubt she would resent it and me! That very same evening, I happened to be scrolling my Facebook feed and came upon a glowing review of Touch Type Read and Spell, a program tailored to dyslexic kids, that teaches phonics and touch typing at the same time.. But even before our testing, I suspected as much so my interest in TTRS was piqued.. many lessons I like that this program can be with us for a long while, slowly and steadily building and reinforcing both typing and spelling skills.

) but we knew that a sure way to kill her joy of reading was to ask our 8 year old to go back to rote practice of her letters.. While we do not have a diagnosis, some recent diagnostic tests point toward some learning challenges that are also found in students with dyslexia.. You can turn the sound on and off, as well as the graphic hands that guide finger placement.. com Touch-type Read & Spell (TTRS) Readandspell com - TTRS is a multi-sensory course that teaches touch-typing skills to help children and adults improve their reading and spelling..
